## SURFACE ANALYSIS

13-Apr-2025

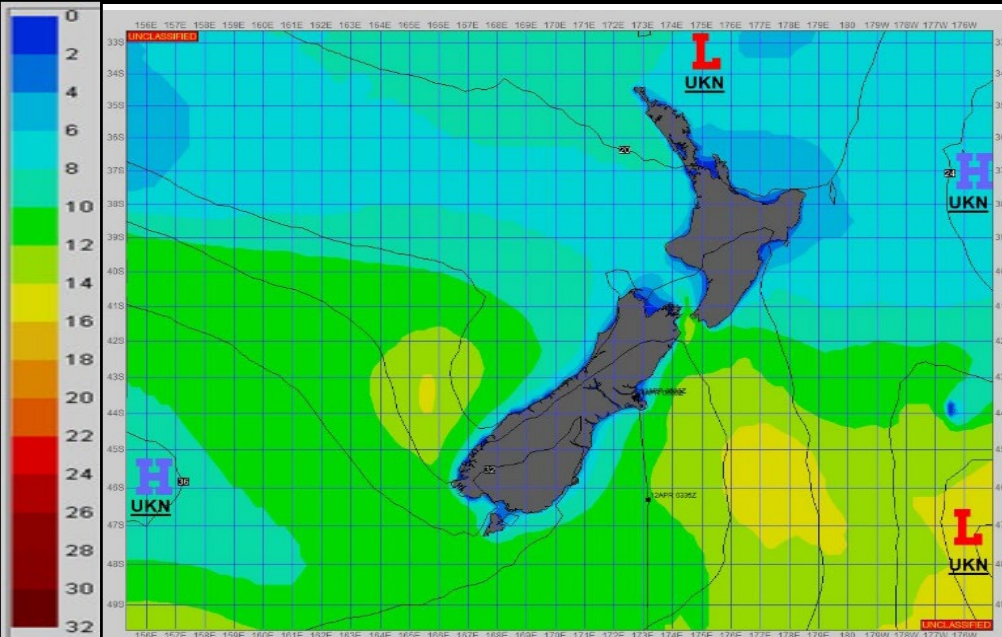

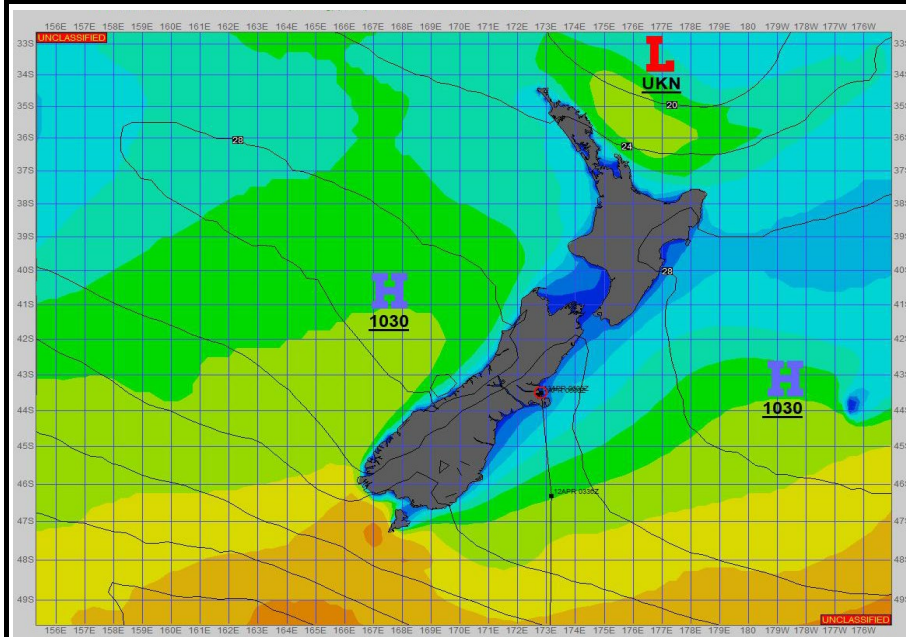

06Z

Seas (FT)

## SURFACE FORECAST

14-Apr-2025

18Z

**METSIT 06Z 13-Apr** High pressure to the east will slide northeast as a cold front approaches the South Island Monday afternoon producing increasing cloudiness with a few isolated showers. Northwest winds will back to the southwest with a period of gustiness associated with rainshowers as the front passes.

## FORECASTER NOTES

This is my final forecast unless otherwise required. Timely observations received from your ship greatly appreciated.
