SURFACE FORECAST

20-Apr-2025

18Z

METSIT 06Z 19-Apr

Forecast provided for departure planning purposes. Low pressure and associated fronts will be producing mostly cloudy skies with rain showers early Sunday. Rain will increase Sunday evening, with highly variable visibility in rain/fog becoming steady overnight through your departure. The Port Hills will provide shelter from strongest winds inport early, becoming southerly as you enter open waters.

FORECASTER NOTES

To assist with ship tracking and ensure the most accurate forecast possible, please include updated waypoints out to 48hrs with all SITREPs. Request 6 hourly weather observation reports IAW COMSCINST 3141.1
