

**METSIT 06Z 25-Apr** The interaction of high pressure to your north and a vigorous storm track to the south will continue to provide strong and steady west-northwesterly winds and seas throughout the forecast and outlook periods. Mostly cloudy skies with periods of light rain and mist will prevail with some sunny breaks early in the outlook period.

**FORECASTER NOTES** To assist with ship tracking and ensure the most accurate forecast possible, please include updated waypoints out to 48hrs with all SITREPs. Request 6 hourly weather observation reports IAW COMSCINST 3141.1
