06Z

Seas (FT)

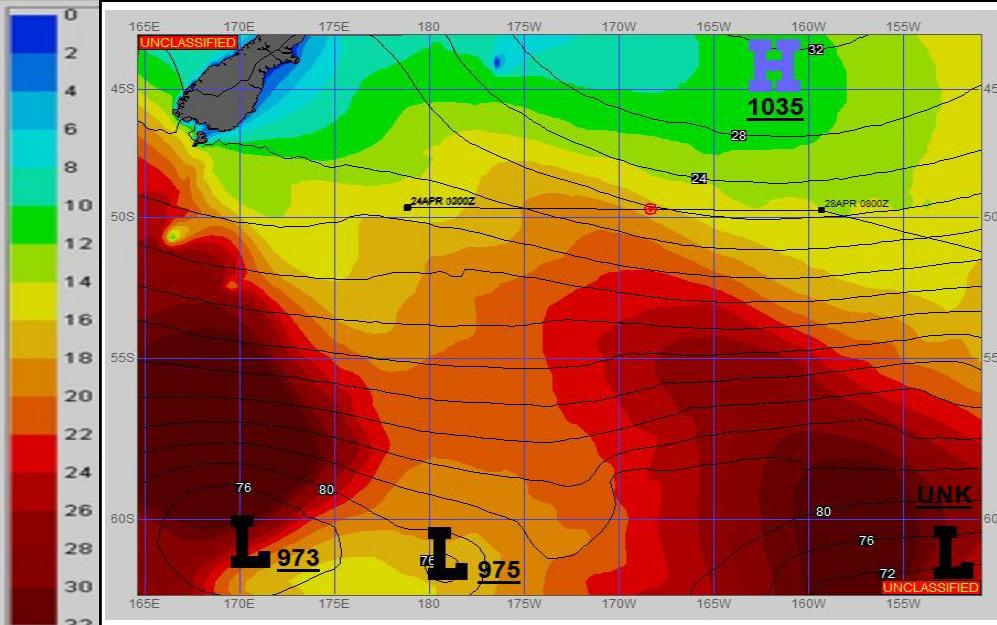

## SURFACE FORECAST

27-Apr-2025

18Z

Seas (FT)

## METSIT 06Z

**26-Apr** Little change in the synoptic situation. The interaction of high pressure to your north and a vigorous storm track to the south continues to provide strong and steady westwesterly winds and seas. Seas will shift more northerly mid period as swell from the north builds. Mostly cloudy skies with periods of light rain and mist will prevail with some sunny breaks in the forecast period.

## FORECASTER NOTES

To assist with ship tracking and ensure the most accurate forecast possible, please include updated waypoints out to 48hrs with all SITREPs. Request 6 hourly weather observation reports IAW COMSCINST 3141.1
